

Nate Cirino

832-833-5202 | cirino.na@northeastern.edu | [portfolio](#) | linkedin.com/in/nate-cirino | github.com/nateci

Available May 2027

EDUCATION

Northeastern University

May 2027 | GPA: 3.6/4.0

B.S. in Computer Science, Systems Concentration

Boston, MA

Coursework: Computer Systems, Computer Networks, Computer Architecture, Algorithms & Data Structures, Object-Oriented Design, Foundations of Software Engineering, Systems Security, Cybersecurity, Data Science

Honors: Dean's List (all semesters), Tech Lead at Northeastern Electronic Racing, PawHacks, json-io OSS Contributor

EXPERIENCE

Wayfair

Jul 2026 – Present

Software Engineering Co-op

Boston, MA

- Built and presented Harbor, an internal tool routing tasks to the best-fit, lowest-cost LLM/agent (Codex, Claude Code, Devin, Cursor) and orchestrating up to 10 concurrent agent sessions across coding, testing, and review
- Building a supplier-agnostic REST API unifying 3 e-label vendors (Vusion, Pricer, Solum) behind one interface, enabling dynamic price updates across 50,000+ shelf labels and streamlining new outlet launches

Wolters Kluwer

Jul 2025 – Jun 2026

Software Engineer

Boston, MA

- Drove a json-io upgrade across 20+ microservices; root-caused the failures to upstream bugs and contributed 2 major fixes to the OSS project, cutting payload size 35% and inter-service latency 28%
- Implemented OIDC authentication across 20 enterprise health systems via Azure Front Door and Entra ID, securing access for 10K+ clinicians while standardizing security posture across environments
- Sustained 99.8% uptime on the Expert AI inference pipeline serving 250K+ daily active clinicians

SculptAI

Jan 2025 – Aug 2026

Founding Engineer

New York, NY

- Shipped Sentinel, an AI SRE agent in production, cutting MTTR on P0/P1 incidents from 45 to 12 minutes by correlating Prometheus, Tempo, and Loki telemetry via tool-use and surfacing likely root causes to on-call
- Engineered the full-stack application (Flask, Redux, React Native/Expo, Redis) serving 1,000+ users
- Built an agentic recommendation pipeline with Google ADK, orchestrating seven linked agents (Decoder, Planner, Validator, Memory, and others) to generate and validate tens of thousands of personalized workout plans

Chevron New Energies

May 2024 – Aug 2024

Software Engineer Intern

Houston, TX

- Orchestrated 200+ Azure Data Factory pipelines moving operational and sensor data from oil rigs to corporate analytics at a 99.95% success rate, holding retry-induced latency overhead under 1% via exponential backoff
- Reduced change failure rate from 15% to 2% with multi-stage Azure DevOps pipelines running automated unit, integration, and performance tests in staging to catch regressions before production

PROJECTS

Kepler | Rust, Raft, LSM-tree, MVCC, Tokio

Mar. 2026 – Present

- Built a distributed, linearizable key-value store in Rust with from-scratch Raft consensus (leader election, log replication, membership changes) and an LSM-tree engine (memtable, WAL, leveled SSTables)
- Added an MVCC layer for snapshot isolation and linearizable reads; deployed in SculptAI's infrastructure to replace managed etcd, cutting infra cost \$2,500/month while raising TPS headroom 30%

NOAA AUV Sonar Detection | Python, PyTorch, AWS Neuron SDK, SageMaker

Apr. 2025 – Jul. 2025

- Optimized CNN inference to sub-50ms p99 latency on a single AWS Inferentia2 core for real-time onboard AUVs
- Trained CNNs from an unoptimized baseline on noisy thermal sensor spectrograms to detect novel aquatic signatures, reaching 94.7% precision and 91.2% recall on a 10,000+ event test set

SKILLS & INTERESTS

Languages & Tools: Rust, Go, Python, C++, C, Java, TypeScript, JavaScript, Kotlin, Swift, Bash, SQL, PostgreSQL, MySQL, MongoDB, gRPC, GraphQL, Linux, Docker, Kubernetes, Terraform, Buildkite, AWS, Azure, GCP

Frameworks & Libraries: React, React Native, Next.js, Node.js, Flask, FastAPI, Spring Boot, Redux, PyTorch

AI / Agentic Tooling: Google ADK, Devin, Cursor, Claude Code, Claude Cowork, GitHub Copilot, CodeRabbit

Interests: Avid Cleveland Browns fan, Weightlifting, Rock Climbing, BJJ, Running
