

Nate Cirino

832-833-5202 | cirino.na@northeastern.edu | [portfolio](#) | linkedin.com/in/nate-cirino | github.com/nateci

Available May 2027

EDUCATION

Northeastern University

May 2027 | MGPA: 3.6/4.0

B.S. in Computer Science, Systems Concentration

Boston, MA

Coursework: Algorithms & Data Structures, Object-Oriented Design, Foundations of Software Engineering, Computer Networks, Computer Systems, Computer Architecture, Systems Security, Cybersecurity, Data Science

Honors: Dean's List (all semesters), json-io OSS Contributor, Tech Lead at Northeastern Electronic Racing, PawHacks

EXPERIENCE

Wayfair

Jul 2026 – Present

Software Engineering Co-op

Boston, MA

- Own the support queue for 500+ front-of-house POS and e-label devices across all four Wayfair retail brands (AllModern, Birch Lane, Joss & Main, Perigold), holding 99.9% uptime at a sub-3-minute average resolution
- Building a REST API to unify 3 competing e-label suppliers (Vusion, Pricer, Solum) behind one provider-agnostic interface, enabling dynamic price updates across 50,000+ shelf labels and streamlining new outlet launches

Wolters Kluwer

Jul 2025 – Jun 2026

Software Engineer

Boston, MA

- Achieved 92% uptime for the Expert AI inference pipeline serving 250K+ daily active clinicians
- Rolled out OIDC/IdP authentication via Azure into the environments of 20 enterprise health systems, securing access for 10K+ clinicians with zero degradation during peak EHR synchronization windows
- Overhauled JSON serialization across 20+ microservices with json-io (upstream OSS contributor), reducing average payload size 35% and cutting inter-service latency 28% during high-traffic clinical query periods

SculptAI

Jan 2025 – Aug 2026

Software Architect

New York, NY

- Built Sentinel, an AI SRE agent in production that root-causes incidents by correlating Prometheus, Tempo, and Loki telemetry via tool-use, cutting MTTR on P0/P1s from 45 to 12 minutes and reducing MTTD 60%
- Implemented a FAISS in-memory vector store with periodic re-indexing and AWS S3 Vectors for persistence, holding retrieval p95 under 150ms at peak while cutting vector storage cost roughly 70% vs. OpenSearch Serverless
- Re-orged 20+ engineers into product-aligned squads (Retrieval, Generation, Observability); now technical advisor

Chevron New Energies

May 2024 – Aug 2024

Software Engineer Intern

Houston, TX

- Reduced change failure rate from 15% to 2% with multi-stage Azure DevOps pipelines running automated unit, integration, and performance tests in staging to reproduce and catch regressions before production
- Orchestrated 200+ Azure Data Factory pipelines across 10+ data sources at a 99.95% success rate, holding retry-induced latency overhead under 1% via exponential-backoff retry policies

PROJECTS

Kepler | Rust, C++, Raft, LSM-tree, MVCC, Tokio

Mar. 2026 – Present

- Built a distributed, linearizable key-value store in Rust with from-scratch Raft consensus and an LSM-tree engine, debugging correctness bugs down to the protocol level rather than patching symptoms
- Reduced API server latency 25% and held 99% uptime across 100 pods under write-heavy load; eliminated managed-etcd dependence via an MVCC layer, cutting infra cost \$2,500/month and raising TPS headroom 30%

NOAA AUV Sonar Detection | Python, PyTorch, AWS Neuron SDK, SageMaker

Apr. 2025 – Jul. 2025

- Optimized CNN inference to sub-50ms p99 latency on a single AWS Inferentia2 core for real-time onboard AUVs
- Trained CNN models on thermal sensor spectrograms to detect novel aquatic signatures, reaching 94.7% precision and 91.2% recall on a 10,000+ event test set while cutting false positives 75% over prior baselines

SKILLS & INTERESTS

Languages & Tools: Python, TypeScript, JavaScript, Go, Bash, SQL, Java, C, C++, Rust, Kotlin, Swift, Linux, Docker, Kubernetes, gRPC, GraphQL, PostgreSQL, MySQL, MongoDB, AWS, Azure, GCP, Terraform, Buildkite

Frameworks & Libraries: FastAPI, Flask, Node.js, Express, React, Next.js, Spring Boot, PyTorch, TensorFlow

AI / Agentic Tooling: Claude Code, Cursor, Devin, GitHub Copilot, Claude Cowork, CodeRabbit

Interests: Avid Cleveland Browns fan, Weightlifting, Rock Climbing, BJJ, Running
