Available May 2027

EDUCATION

Northeastern University

May 2027 | GPA: 3.6/4.0

B.S. in Computer Science, Systems Concentration

Boston, MA

Coursework: Cybersecurity, Systems Security, Data Science, Algorithms & Data Structures, Computer Networks, Computer Systems, Object-Oriented Design, Foundations of Software Engineering, Computer Architecture

Honors: Dean's List (all semesters), json-io OSS Contributor, PawHacks, Tech Lead at Northeastern Electronic Racing

EXPERIENCE

Wayfair

Jul 2026 – Present

Software Engineering Co-op

Boston, MA

- Built and presented Harbor, an internal agent-orchestration service routing each task to the best-fit, lowest-cost LLM/agent (Codex, Claude Code, Devin, Cursor) and running up to 10 concurrent agent sessions across coding, testing, and review
- Building a supplier-agnostic REST API unifying 3 e-label vendors (Vusion, Pricer, Solum) behind one API contract, enabling real-time price updates across 50,000+ shelf labels and streamlining new outlet launches

Wolters Kluwer

Jul 2025 – Jun 2026

Software Engineer

Boston, MA

- Sustained 99.8% uptime on the production Expert AI inference pipeline serving 250K+ daily active clinicians
- Implemented OIDC authentication and authorization across 20 enterprise health systems via Azure Front Door and Entra ID, securing access for 10K+ clinicians while standardizing security posture across environments
- Drove a json-io upgrade across 20+ microservices; root-caused the failures to upstream bugs and contributed 2 major fixes to the OSS project, cutting payload size 35% and inter-service latency 28%

SculptAI

Jan 2025 – Aug 2026

Founding Engineer

New York, NY

- Shipped Sentinel, an AI SRE agent in production, cutting investigation time on P0/P1 incidents from 45 to 12 minutes by correlating Prometheus, Tempo, and Loki telemetry via LLM tool-use and surfacing likely root causes to on-call for human-in-the-loop review
- Built an agentic recommendation pipeline with Google ADK, orchestrating seven linked agents (Decoder, Planner, Validator, Memory, and others) to generate and validate tens of thousands of personalized workout plans
- Engineered the full-stack application (Flask REST APIs, Redux, React Native/Expo, Redis) serving 1,000+ users

Chevron New Energies

May 2024 – Aug 2024

Software Engineer Intern

Houston, TX

- Orchestrated 200+ Azure Data Factory pipelines streaming operational and sensor data from oil rigs into corporate analytics at a 99.95% success rate, holding retry-induced latency overhead under 1% via exponential backoff
- Reduced change failure rate from 15% to 2% with multi-stage Azure DevOps pipelines running automated unit, integration, and performance tests in staging to catch regressions before production

PROJECTS

NOAA AUV Sonar Detection | *Python, PyTorch, AWS Neuron SDK, SageMaker*

Apr. 2025 – Jul. 2025

- Trained CNNs in PyTorch from an unoptimized baseline on noisy thermal sensor spectrograms to detect novel aquatic signatures, reaching 94.7% precision and 91.2% recall on a 10,000+ event test set
- Optimized CNN inference to sub-50ms p99 latency on a single AWS Inferentia2 core for real-time onboard AUVs

Kepler | *Rust, Raft, LSM-tree, MVCC, Tokio*

Mar. 2026 – Present

- Built a distributed, linearizable key-value store in Rust with from-scratch Raft consensus (leader election, log replication, membership changes) and an LSM-tree engine (memtable, WAL, leveled SSTables)
- Added an MVCC layer for snapshot isolation and linearizable reads; deployed in SculptAI's infrastructure to replace managed etcd, cutting infra cost \$2,500/month while raising TPS headroom 30%

SKILLS & INTERESTS

Languages & Tools: Python, Go, Rust, C++, C, Java, TypeScript, JavaScript, Kotlin, Swift, Bash, SQL, PostgreSQL, MySQL, MongoDB, gRPC, GraphQL, Linux, Docker, Kubernetes, Terraform, Buildkite, AWS, Azure, GCP

Frameworks & Libraries: PyTorch, FastAPI, Flask, Node.js, Spring Boot, React, React Native, Next.js, Redux

AI / Agentic Tooling: Google ADK, Claude Code, Cursor, Devin, GitHub Copilot, CodeRabbit, Claude Cowork

Interests: Avid Cleveland Browns fan, Weightlifting, Rock Climbing, BJJ, Running
